

# Ashfield Valley Primary School — Plants - Can I label and describe the basic parts of a plant? Can I identify and name common garden plants, wild flowers and trees? Y1

## Key Vocabulary and Knowledge

Parts of a plant include:

**Roots** – Roots take in water and nutrients from the soil.

**Stem** – The stem holds the plant up and carries the water and nutrients from the roots to the leaves and flowers.

**Leaves** – Leaves catch sunlight to make energy.

**Flowers** – Flowers attract insects and birds.

**Petals** – Petals are the colourful part of the flower.

**Fruit** – Fruit contains the plant's seeds. Sometimes humans try to grow fruit without seeds because it's easier to eat.

**Seed** – Seeds grow into new plants.

**Bulb** – Bulbs grow into new plants.

**Types of plants and trees include:**

**Wild Plants** – A wild plant seed grows where it falls. It doesn't need to be planted or cared for as it grows.

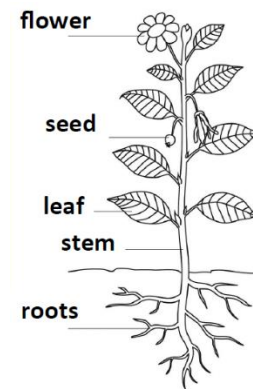

**Garden Plants** – Garden plants are plants that people choose to grow in their gardens.

**Deciduous** – A deciduous tree loses its leaves each year.

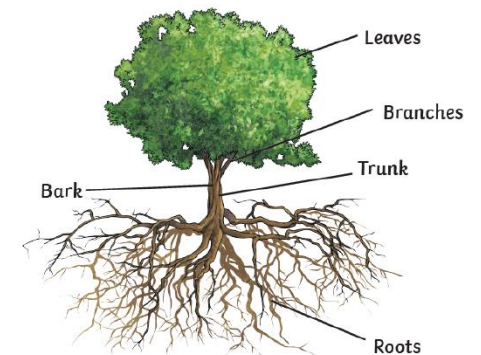

**Evergreen** – An evergreen tree keeps its green leaves all year round, even in the winter.

Plants are a large group of living things that use sunlight to make their own food.

### Parts of a Plant

### Parts of a Tree

### Wild Plants

dandelion

daisy

fuchsia

pansy

### Garden Plants

### Trees

cedar

horse chestnut

oak
