

Ashfield Valley Primary School– Year 2—Geography- What are Seasons?

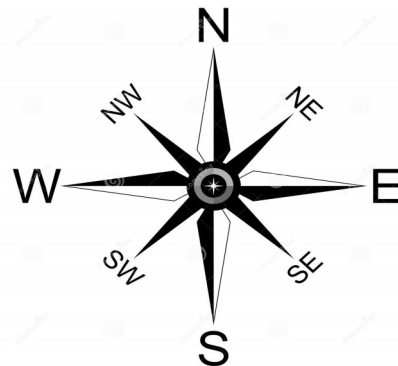

Key Knowledge

- There are 4 seasons.
Spring—March, April, May
Summer—June, July, August
Autumn –September, October, November
Winter—December, January, February
- The weather patterns are different in each seasons.
- A weather forecast is a statement saying what the weather will be like today, the next day or for the next few days.
- Weather forecasts use different symbols which

are helpful.

- When the weather changes, you need to wear the correct clothing and do different activities.
- You can record the temperature using a thermometer to see how warm or cold it is.
